January 8, 2015

To Our Valued Customers:

As most of you may already know the **Parking Restrictions** for city streets are now being enforced with a zero tolerance policy during rush hour. (times vary according to street signage) Strict Enforcement of **"No Stopping"** regulations on major roads in Toronto are affecting all vehicles, including **delivery trucks**. Vehicles are now being parking tagged and towed.

According to Global News, January 5, 2015 the following can apply:

- Police have been tasked to pay special attention to high occupancy lanes, rush hour route parking, construction vehicles blocking routes and double parked cars.
- Police say drivers caught blocking traffic will be fined up to \$150.
- "Depending on how long the vehicle stays in the pound, the tow is upwards of \$300," said Traffic Services Cst. Clint Stibbe.
- "So by the time you're done, you're looking at just shy of \$500 for the whole event, including the cab ride to the pound."

**\*\*The above fees are what is expected for a personal vehicle. Fees for trucks and trailer could possibly be more\*\***

**TOTAL** will do its best to find parking for all pick up and deliveries, by watching street signage for times and or days parking is permitted. Please understand though if a dock or off street parking is not available at the time of pickup or delivery and we are tagged and/or towed, these fees will be charged back to you plus a 15% admin fee.

Sincerely,

Mike Tache  
Vice President - Logistics
